Live Well Carrollton, McCoy Samples Mattingly Partner to Expand Access to Dental Care

Health care, especially rural health care, thrives when practitioners partner to provide comprehensive care. To this end, the Health Care Collaborative (HCC) of Rural Missouri is partnering with Carrollton, Missouri-based McCoy Samples Mattingly Dental Clinic to expand dental care services in the area. Live Well Community Health Center - Carrollton, a federally qualified health center (FQHC) owned and operated by HCC, is working with Kyle Samples, DDS of McCoy Samples Mattingly Dental Clinic, to make oral health care more accessible to the community and surrounding areas. Dr. Samples will continue to practice at McCoy Samples Mattingly Dental Clinic, at 1411 N. Jefferson Street #A which is just a rock throw away from Live Well Carrollton at 1413 N. Jefferson Street.

“Rural health care works best when providers blur the dividing lines and simply work together,” said HCC’s CEO Toniann Richard. “McCoy Samples Mattingly Dental Clinic and our Live Well clinics share the mindset that when we collaborate to improve and expand access to quality health care, those we serve benefit. That’s the bottom line.”
